**Subject:** Covance Project Agreement #16  
  
**Importance:** High

**Team:**

I have spoken both with MDS and the PM Study Manager. We have agreed to postpone the first shipment of samples for this (4-ABP) analysis until early October (MDS schedules shipments once a month unless there is a priority need).

To that end, review of this agreement by the project team may be finalized next week when the project team meets.

Thanks for your willingness to move this forward if needed. If any questions, please let me know.
